nano REVOLUTION

“TRANSFORMING THE FUTURE - ONE BREAKTHROUGH AT A TIME”

nanorevolution.ro

COMPANY PROFILE

ABOUT US

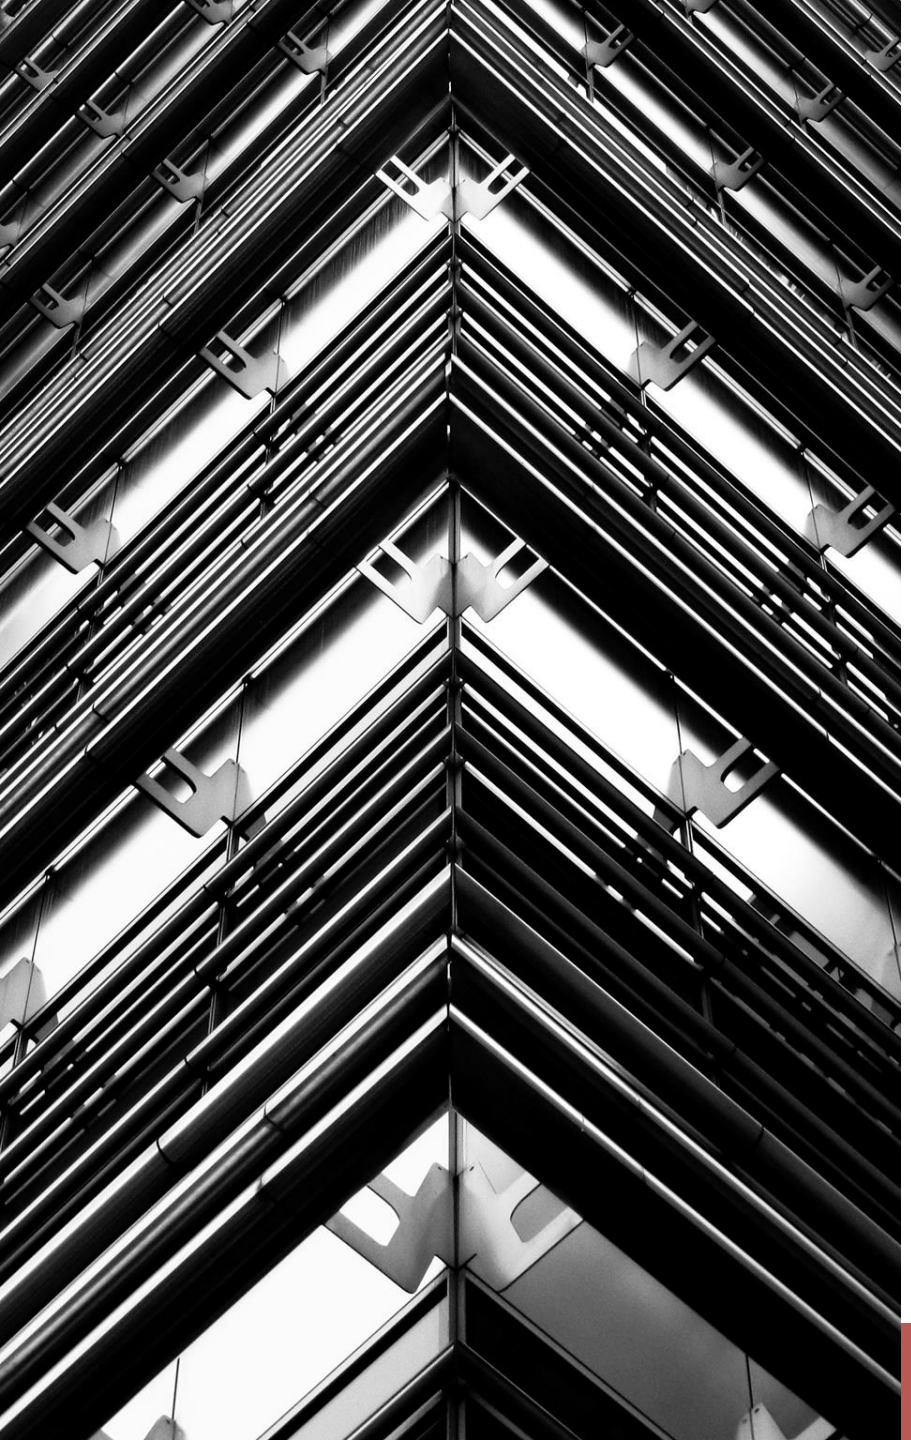
Nano Revolution is at the forefront of innovation, bringing cutting-edge nanotechnology into everyday life and industries. Founded in October last year, our mission is to introduce smart, revolutionary products that redefine efficiency, sustainability, and performance.

Our flagship product, ThermX, is a game-changer in the world of insulation and waterproofing, offering a solution that was originally developed for the aerospace industry and has since evolved into one of the most advanced insulation technologies available.

WHAT WE DO

We specialize in cutting-edge nanotechnology solutions that surpass traditional methods in efficiency, cost-effectiveness, and ease of application. Our goal is to develop sustainable, high-performance nanomaterials that enhance energy efficiency, durability, and functionality across residential and industrial applications.

TRANSFORMING THE FUTURE - ONE BREAKTHROUGH AT A TIME.



thermX

Insulation. Reinvented

ThermX is a cutting-edge insulating and waterproof coating engineered for versatile applications across industries. ThermX is ultra-thin yet incredibly powerful, making it the ideal solution for modern and historic structures alike.

Why thermX

Superior Insulation – Reflects 85% of heat, minimizing energy loss with ease.
Versatile Usage – Ideal for homes, industries, buildings, rooftops, pipes, boats, cold rooms, cars, and beyond.
Engineered for Durability – UV-resistant, water-resistant, and breathable for long-lasting performance.
Flexible & Resilient – 12% elasticity ensures it adapts to movement without cracking.
Fast & Efficient – Quick application, cost-effective, and outperforms conventional insulation.
Long-Term Protection – Advanced antifungal and bioprotective properties prevent mold, prolong lifespan, and maintain cleanliness.
Eco-Conscious Innovation – Water-based, safe, and sustainable—delivering high performance without harming the planet.
